THANKS TESTIMONIALS

It was pleasant working with Vince on one of the engagement application for Dealer on both mobile and laptop not long ago. The app, known as DealerApp is a sales tool that enabling information updates and sales entries for the sales representatives when they are on the move. It also allows the management to recognise sales areas that have yet to be covered by the representatives so that a crucial strategy can be established in catching up on sales transaction. This app was later evolved into a Salesforce app for sales representatives, dealers and centres.

Vince and his team spend hours understanding our requirements. He is always passionate about building up the app and assuring all requirements were handled and managed in care.

THANKS TESTIMONIALS

ONE PING team response is fast, and price very reasonable. Vince, you did a good job, deliver the project 2 weeks ahead schedule.

Mr. Foong (*CISM / PRINCE2*)
